

Forming our Future 2014 Comprehensive Plan Update

You're Invited!

Comprehensive Plan Update Scoping Public Event **Tuesday January 29, 2013 5:00-7:00 pm** **Crossroads Community Center**

- What do you envision for the future of Bellevue?
- What do you value most in your community and neighborhood?
- What should we add to make Bellevue even more vibrant and welcoming?

Now is the time to think and plan for the future.

At this upcoming public event the public will take the first steps to help define the scope of the Comprehensive Plan update—a major review of the plan over the last ten years.

The update will examine how the city has changed, capturing the impacts of new Census population and job growth, addressing how to meet long-term community, economy, and environment needs, continuing a strong policy foundation for city decisions and actions especially related to infrastructure investments, neighborhoods, land use, environment, and economic development, and staying consistent with state law and regional plans.

The Comprehensive Plan is the holder of the community's vision for the future of Bellevue. It sets policy that directs City actions and decisions, and it guides City investments. With the Comprehensive Plan, the City plans for people, places to live and recreate, jobs and a strong local economy, schools and colleges, and a healthy environment.

Title VI Notice to Public

It is the City of Bellevue's policy to assure that no person shall on the grounds of race, color, national origin or sex, as provided by Title VI of the Civil Rights Act of 1964, be excluded from participating in, be denied the benefit of, or be otherwise discriminated against under any of its federally funded programs and activities. Any person who believes his/her Title VI protection has been violated may file a complaint with the title VI Coordinator. For Title VI complaint forms and advice, please contact the title VI Coordinator at 425-452-4270.

Scoping of Environmental Issues

This project is informed in part by environmental analyses, using a process referred to as "SEPA/GMA Integration" by the State Environmental Policy Act. To make sure environmental considerations are an integral part of the development and evaluation of alternatives, the CPU will be identifying, or "scoping" environmental issues throughout the planning process. The January 29, 2013, event will provide additional opportunity to identify environmental issues. A formal SEPA determination will occur at a later stage in the planning process.
